Aberdeen, UK, 19th February 2015

Stork wins major Apache contract

Stork, global provider of knowledge-based asset integrity management services focused on the oil & gas, chemical and power sectors, has been awarded a significant three year contract extension with two one-year extension options, for global oil & gas operator Apache.

Stork will provide Apache a full range of integrated Fabric Maintenance support services including: scaffolding, insulation, coatings, passive fire protection, deck support, environmental and decontamination and rope access.

This reinforces the strength of Stork's services portfolio delivering a fully integrated asset optimisation approach across Apache's Forties field and onshore SAGE Terminal at St. Fergus.

The initial contract was awarded to Stork in 2009 and has now been extended until 2017.
