WE HAVE GROWN OUR BUSINESS IN LINE WITH KEY AREAS OF ENERGY EXPLORATION AND PRODUCTION, ENSURING THAT WE ARE BEST PLACED TO SUPPORT THE GLOBAL OIL & GAS INDUSTRIES AT A LOCAL LEVEL.
As experts in maintenance, modifications and asset integrity services, Stork supports clients to optimise production and improve asset efficiency in the Norwegian sector. From Stavanger, Stork supports performance by maintaining, repairing and modifying assets. Delivering a wide range of services including Machine Building & Relining, Subsea Tooling & Hydraulic Equipment, Heat Treatment, Subsea Tooling & Hydraulic Equipment, Subsea Tooling & Hydraulic Equipment.

Sustainability

We commit to using our resources efficiently and minimise waste. Our wide integrated capabilities and award winning innovations are reported on the Asker Local and with our over 40 years’ experience delivering solutions throughout the Middle East and Europe. Our clients reduce environmental emissions and increase their competitiveness.

Responsiveness

Contact us to ensure excellence. We are readily accessible and the experience necessary to help our clients reduce environmental emissions and increase their energy efficiency.

Machine Building & Relining

Stork manages the entire joint integrity process, from inspection throughout to assembly and testing. Our maintenance services include specialist joint integrity and our comprehensive maintenance services.

Subsea Tooling & Hydraulic Equipment

Our wide range of integrated services offers clients full project management solutions from initial concept to final delivery, giving the client a comprehensive overview of the installation.

Heat Treatment

Stork Cooperheat has the reputation for delivering a wide range of maintenance solutions throughout the Middle East and Europe. We are uniquely positioned to support oil and gas operators throughout the asset lifecycle. From design, hook-up, construction and commissioning through to maintenance and shutdowns, Stork ensures value is added at every stage of an asset’s lifecycle.

ASSET INTEGRITY PARTNER

We provide our clients with comprehensive maintenance solutions throughout the Middle East and Europe. Our clients reduce environmental emissions and increase their competitiveness.

DELIVERING EXPERTISE
