

STORK

A Fluor Company

OPERATIONS & MAINTENANCE

WWW.STORK.COM

FULLY INTEGRATED OPERATIONS & MAINTENANCE

Stork, a Fluor company, is a value-driven provider of fully integrated operations and maintenance. Our integrated approach allows us to ensure asset integrity, reduce unscheduled downtime and improve operational efficiency, without compromising on safety or quality.

Working in partnership with operators and their service providers, we use our extensive knowledge and expertise to plan and execute a wide range of operations and maintenance using best practice developed from many years experience in the onshore and offshore sectors.

Our turnkey service offering is delivered via a dedicated client focal point to reduce the number of interfaces for our clients, and we deploy multi-skilled project teams that are competent in a variety of core crew activities to reduce pressures on manning levels.

Our extensive suite of assured equipment, combined with our skilled and experienced people, enables us to deploy competent crews and quality equipment at short notice to meet all your requirements.

By setting new standards of excellence in operations and maintenance, we aim to be the industry reference.

Every day, everywhere.

SUPPORTING THE FULL LIFECYCLE OF OUR CLIENT'S ASSETS

Our solutions

Fully integrated solutions to support the start-up of new facilities, to increase asset performance, and to optimize operations and maintenance strategies, including fully embracing Industry 4.0 opportunities.

Our services

Stork takes on the responsibility with regard to planning, scheduling and supervision of all activities from continuous site presence to large projects.

Hereby unburdening our clients by applying our industry-proven work processes and supporting automation tools.

Our resources

People and tools are foundational to all our services & solutions. Whether you need one specialist or hundreds of craft to execute a project, Stork can quickly augment the resource pools which clients require.

WHAT WE DO

HOW WE ADD VALUE

Stork provides a comprehensive maintenance service portfolio across most industry sectors. Our services can be provided on a standalone basis as well as in a totally integrated fashion. On-site, Stork performs world-class maintenance, helping to minimize risks and lower overall maintenance costs without compromising on safety by making use of multi-skilled craft personnel. In select industrial dense zones, Stork also has its own workshops to cost efficiently plan and execute maintenance-related work for surrounding clients.

Stork teams are trained and ready to take on daily operations of facilities, including facility management planning and control, delivering safe, reliable and predictable output. From handling feedstock, manufacturing and production processes, to product storage packaging and shipping, we take care of the day-to-day operations.

Our services include:

- Planning & scheduling expertise with your preferred CMMS
- Mechanical & piping services
- Fabric maintenance services for facilities in corrosive environments
- Electric & instrumentation services
- Inspection & non-destructive testing
- Repair & overhaul services for pumps, valves, and gearboxes
- Spare-parts management
- Specialty-contractor management
- Reliability engineering support
- Safety management
- Mobilization, staffing, training & orientation
- Inventory management
- Quality & control
- Environmental services
- Management & administration
- Planning & supervision
- Engineering & procurement
- Logistics

It is our goal to add value wherever we operate. We help our clients reduce risk, assure safety and improve environmental performance by adding value in the following ways:

People focus

Having highly skilled, trained and certified people who maintain & operate at the highest standards.

HSE excellence

Strongly focused on process safety through Stork's global REACH Beyond Zero HSE program.

Optimized activity

Experience and expertise to optimize the maintenance execution and operational activities supporting the client's production process.

Innovative solutions

In-depth analysis of (potential) production losses and implementing innovative solutions to any issues.

Transparent approach

A fully transparent approach through partnering closely with clients and providing the confidence to take care of their assets.

PROJECTS DELIVERED

We support thousands of clients in more than 100 countries with fully integrated maintenance services and operational support. Recent successful projects and new clients include:

- Rio Tinto (USA)
- BPTT (Trinidad and Tobago)
- Karratha Gas Plant (Australia)
- GASCO (United Arab Emirates)
- ZADCO (United Arab Emirates)
- NAM (Netherlands)
- Gasunie (Netherlands)
- Ecopetrol (Colombia)
- Chrysoar (United Kingdom)
- Shell UK (United Kingdom)
- GLOBALFOUNDRIES (USA)
- Huntsman (USA)
- SunCoke Energy (USA)
- Repsol Sinopec Resources UK (United Kingdom)
- Apache (United Kingdom)
- Statoil (United Kingdom)

We thank the Stork and ZADCO teams for their great efforts to assist us in achieving this great milestone, and completing the work in safe and timely manner.

Khalid Naser Humaid Al Hasani
Manager Electrical & Control, ZADCO

SAFETY IS A CORE VALUE

Safety is not a priority at Stork, it's our first core value. Whatever priorities we have each day, taking care of each other's safety, health and protecting the environment is central to how we do things.

REACH Beyond Zero is our global HSE platform to help us turn our core value into a day-to-day reality. It is our aspirational vision for HSE. 'Zero' because we believe that incidents are not inevitable, they are preventable. By working together, we can create a future at Stork that is free of incidents. 'REACH Beyond' because we are always pushing ourselves to go further, to continuously improve our HSE performance. Through REACH Beyond Zero, we all benefit. There are six building blocks that help us REACH Beyond Zero.

People create safety

Recognizing that it is our behaviors and attitudes that make the difference. At Stork, we have well developed behavioral safety programs, leadership training, recognition and awards to ensure we are all skilled and motivated to be safe.

Global standards, local ownership

Setting out our expectations for HSE across the Stork business, with global consistency where it makes sense, whilst making the most of the expertise and diversity of our local teams. Global standards include our minimum safety expectations for all tasks that are described in our 10 Life-saving rules.

HSE intelligence

Using the experience and knowledge of 18,000 employees worldwide to help direct our HSE activities. This includes looking out for new risks in the work

environment. Reporting hazards, near misses and events and analyzing these events for trends. We use leading indicators to measure the effectiveness of our risk prevention measures.

Adding client HSE value

As a global leader in operations & maintenance, we bring a wealth of expertise in HSE to our clients. At every client location, it is our aim to exceed our clients HSE expectations and be an active partner in improving our clients HSE performance.

Strong HSE function

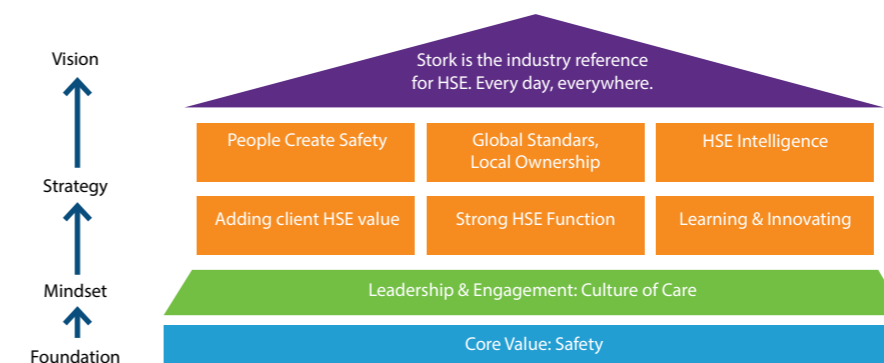

Stork has a global network of HSE professionals who support our operations teams in delivering safe operations. This global function ensures that we always have the capability to succeed in HSE.

Learning and innovating

Central to our REACH Beyond Zero vision are the opportunities to apply learning from our own incidents and those that occur within wider industries. At Stork, we are continuously scanning the market for innovations that may help us reduce our HSE risks.

At Stork, we aim to be the industry reference for HSE. Every day, everywhere.
