

STORK

TRENDS IN ASSET MANAGEMENT 2023

Maintaining a better world

WELCOME TO TRENDS IN ASSET MANAGEMENT 2023

Maintaining a Better World at this former Toothpaste Factory Location..

In our current world the definition of asset value is continuously re-invented and assets are repurposed..

OVER THE YEARS

THE ADDED VALUE AND PURPOSE OF STORK...

... has also been re-invented and had changed.

Stork 1.0 + 2.0

- Manufacturing
- Product focus

Stork 3.0

- Services
- Knowledge focus

Stork 4.0

- Smart industry
- Data focus

Stork 5.0

- Energy transition
- Environment focus

1827

Time

WE STARTED RE-THINKING AND RE-DEFINING WHAT OUR PURPOSE...

... and value proposition should be.

WE NEED TO START ADDING A
NEW SPECTRUM TO OUR THINKING

STORK

IN 2022 WE INTRODUCED OUR “MAINTAINING A BETTER WORLD” PURPOSE

MAINTAINING A BETTER WORLD

‘Maintaining’ is what we do, ‘a Better World’ is the value we add for all our stakeholders:

for the
PEOPLE
who work for us

for the
PLANET
we live on

for the
CLIENTS
we work for

for the
SHAREHOLDER
who entrusts us

STORK

OUR VIEW ON “MAINTAINING A BETTER WORLD”...

... is a joint effort focusing on protecting our environment.

Supporting the energy transition
(wind, solar, geothermal, nuclear, hydro, ... and hydrogen!)

Reducing the footprint of others

Reducing our own footprint

FROM AN ASSET MANAGEMENT PERSPECTIVE...

... we see different paths followed for existing installations versus new.

Existing installations

- Life time extension & Decarbonisation
- Redesign towards circular processes
- Reduction of Energy
- Reduction of Waste
- Reduction of emissions
- Repurposing

New installations

- Smart maintenance & Green Fuels
- Remote Controlled & Unmanned Maintenance
- Adaptive Maintenance
- Predictive and Prescriptive
- Data driven
- Shift from M&P towards E&I

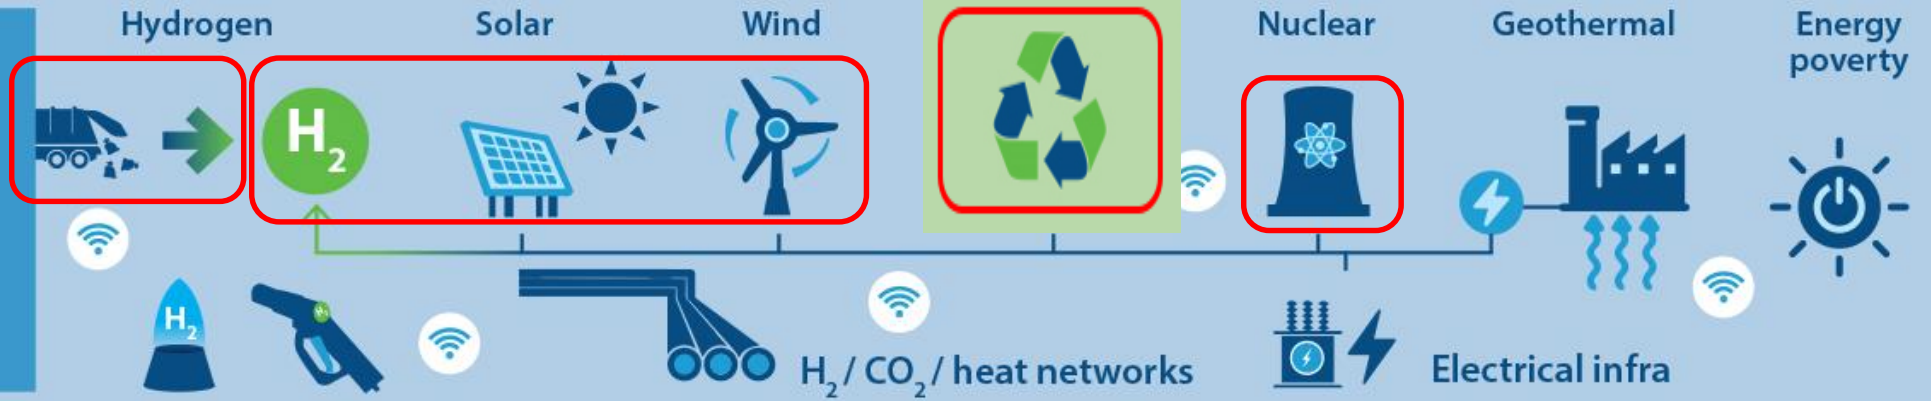

STORK AND DECARBONIZATION - HOW WE PROTECT THE ENVIRONMENT

WORLD'S FOOTPRINT

SUPPORT THE ENERGY TRANSITION

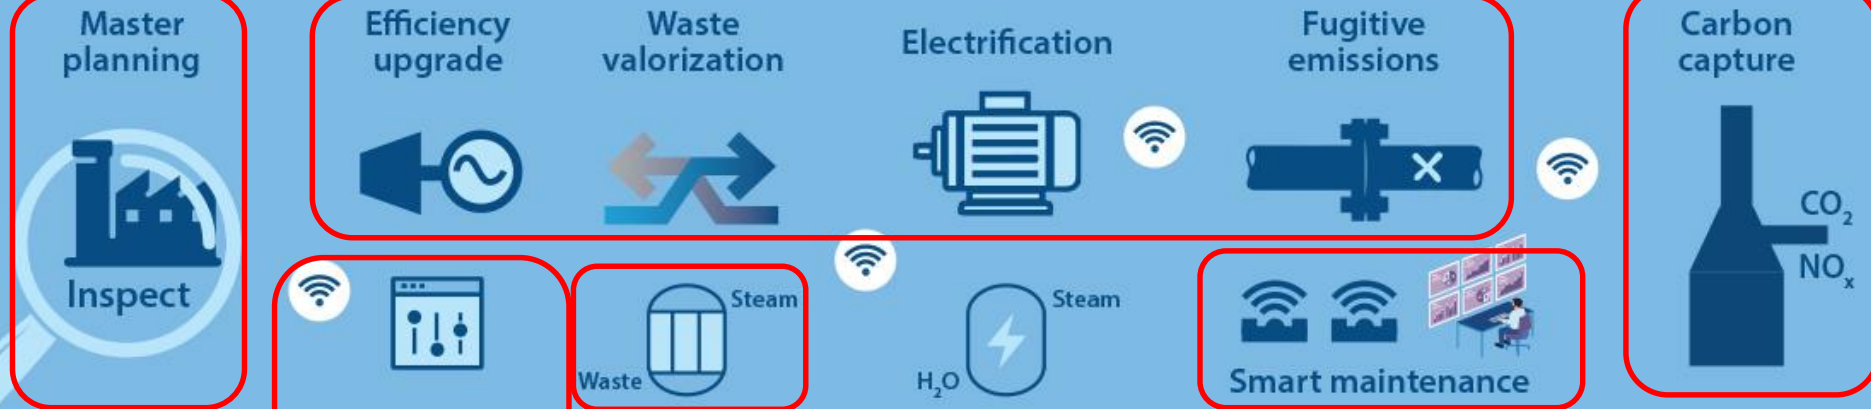

- New technologies
- Cost efficient O&M services
- Reduce energy poverty

CLIENT'S FOOTPRINT

DECARBONIZE EXISTING ASSETS

- Advisory services
- Overall management
- Actual execution

STORK'S FOOTPRINT

DECARBONIZE OUR OWN ACTIVITIES

- In the field
- As we travel
- In our own workshops

And share our knowledge with the community around us

LOCAL COMMUNITY FOOTPRINT

STORK AGENDA

- 13.30 u **Keynote 1: Victor Salet - HyCC**
Driving the energy transition: a view from future operator perspective
- 14.00 u **Keynote 2: Raf Stout - Gidara Energy & Neil Grimley - PX**
Renewable energy from non recyclable waste
- 14.30 u Pauze en netwerkmoment
- 15.00 u 2 x Break-out:
- **Esther Vermolen - NAM: De rol van NAM in de energietransitie**
 - **Frank Geerdink - CMT: Circulariteit in de scheepvaart**
 - **Wouter van Caspel - EPZ: Kernenergie, voortdurend verbeteren**
- 16.30 u **Keynote 3: Prof Erik Beulen - Tilburg University**
Leveraging platforms in asset management
- 17.00 u **Wrap-up & Netwerkborrel**
