Hazard Perception Last Minute Safety Check

- **CHECK:** Conduct a 20 second scan: what is happening around you?

- **CHECK:** What are the hazards associated with the task? How are these controlled?

- **CHECK:** Are you out of the line of fire of any hazards?

- **CHECK:** Are all hazards controlled? If not, stop, think, act and review.

- **CHECK:** Are you using the correct tools for the task?

- **CHECK:** Are you wearing the correct PPE for the task?

- **CHECK:** Are your walkways clear of hazards?

- **CHECK:** What are the hazards away from the worksite? How are these controlled?
